

PhD program
Molecular Medicine and Medical Biotechnology
Training activities

Friday, Nov. 10

09:00-10:00 - Data club: dr. Francesco Ingenito

10:00-11:30 - Language fluency

11:30-13:00 - Manuscript writing

Seminar room 4th floor Torre Biologica

Other events are attached

DMMBM–IEOS SEMINARS

Building 19 (Torre Biologica) – AULA SEMINARI IV PIANO
Via Sergio Pansini 5, Napoli

November 2023

At 15:00

Tuesday 7

Ruolo della metil-transferasi SETD8 nei glioblastomi

Dr. Rosa Della Monica. DMMBM, University of Naples Federico II.
CEINGE Biotechnologie Avanzate

Tuesday 14

Immunometabolic control of *self*-tolerance: implications in autoimmunity and cancer

Dr. Alessandra Colamatteo. DMMBM, University of Naples Federico II

Tuesday 28

Let's clarify: an encoded user manual technology to improve efficacy of nucleic acid-based therapeutics

Dr. Emanuele Sasso. DMMBM, University of Naples Federico II

10 NOVEMBER

12 PM

AUDITORIUM ANGELO MARAMAI - TIGEM

SEMINAR 2023

“Pharmacological modulation of CFTR in patient-derived primary airway epithelial cell cultures in cystic fibrosis”

LUIS GALIETTA INVITED:

Marcus A. Mall, MD, FERS

Professor and Director

Department of Pediatric Respiratory Medicine, Immunology and Critical Care Medicine
Charité Universitätsmedizin Berlin – Campus Virchow Klinikum

8 NOVEMBER

12 PM

AUDITORIUM ANGELO MARAMAI - TIGEM

SEMINAR 2023

“Cell growth and senescence control by mTOR
and downstream kinases”

ANDREA BALLABIO INVITED:

Mario Pende, PhD

Necker Children Hosp./Inserm/Paris University
